

Desert Healthcare District

August 19, 2015

On Friday, August 8, 2015, Michael Solomon, M.D. filed a civil complaint against the Desert Healthcare District in Riverside County Superior Court. The complaint stems from previously-rejected accusations made against DHCD, its Board of Directors and staff in early 2015. The lawsuit has been referred to the District's insurer for further review and analysis.

While DHCD or its representatives cannot comment or answer questions on specific allegations contained in this pending litigation, we believe that the allegations are groundless. We can assure our residents and grant partners that we are committed to providing good governance on their behalf. In the interest of complete transparency, the lawsuit and related documents have been posted to the District's website at www.dhcd.org.
