Subject: Behavioral Health Initiative Informational Update

**Staff Recommendation:** Information only

#### **History/Background:**

- As part of the Desert Healthcare District and Foundation's ongoing focus on Strategic Plan Goal 3 (Proactively expand community access to behavioral/mental health services), recent grantees: Desert Sands Unified School District Educational Foundation, Innercare, Martha's Village and Kitchen, Regents of The University of California At Riverside, and Transgender Health and Wellness Center (associated with the Desert Healthcare District and Foundation's Request for Proposal (RFP) Improving Access to Behavioral Health Education and Prevention Services to Children (0-18yrs) and Their Families met on October 14, 2022 to review their project focus and goals with their peer grantee organizations. These presentations also provided the opportunity for further coordination between these organizations as they initiate their identified services.
- The Results Based Accountability (RBA) structure as a measurement of the impact of the services provided in alignment with the District Strategic Plan Goals (2021-2026) was shared with the grantee organizations during the October 14<sup>th</sup> meeting. This framework for tracking service impact will be incorporated into the performance reporting structure throughout the grant period for each grantee. This training was presented by Stephanie Minor of NPO Centric.
- District outreach to Coachella Valley Equity Collaborative (CVEC) organizations that highlighted a focus on improving behavioral health within the communities they served resulted in a District hosted on November 1, 2022 in which 4 organizations (Alianza Coachella Valley, El Sol Neighborhood Educational Center, Vision y Compromiso, and Youth Leadership Institute) met and shared their identified projects and goals related to increasing behavioral health awareness and access to services in their communities. As a way to support the tracking of progress related to these projects, the Results Based Accountability (RBA) framework was introduced to the group by Stephanie Minor of NPO Centric. Ongoing support to these organizations will be provided as this process advances.

Fiscal Impact: None

Report Period: 09/01/2022 – 09/30/2022 | Report by: Heidi Galicia, Dir. School Base Health / Mobile Services (Monthly report due the 15<sup>th</sup> of each month)

**Program/Project Information:** 

Grant # 1288

Project Title: Improving Access to Healthcare in Desert Highland Gateway Estates

 Start Date:
 07/01/2021

 End Date:
 06/30/2024

 Term:
 36 Months

 Grant Amount:
 \$575,000

**Executive Summary:** Borrego Health is committed to providing and increasing access to healthcare services for those living in Desert Highland Gateway Estates and the surrounding communities. This funding will provide support for a pilot mobile services program and begin to assess the sustainability of a more permanent health care program within the community. It is anticipated that 2,913 medical and dental visits will be conducted with part-time mobile services in the community.

Goal	Goal/ Objective/ Other Topics	Successes, Emergent Issues, Challenges Findings, and Supporting Information (Graphs, reports, indicator results, etc.)
1. Collaboration	Through a multifaceted approach, Borrego Health intends to develop a collaborative relationship with the DHG Health and Wellness Committee. The team is committed to participation in meetings as desired by the committee to ensure open dialogue as to the perceptions of health issues. The committee will be informed of all planned schedules and activities on a monthly basis in advance to encourage support and participation. Any changes will be clearly communicated to avoid any misunderstanding.	Borrego leadership continues to meet with the Desert Highland Gateway Estates Wellness committee to provide updates regarding the utilization of services, activities, and challenges. The goal is to encourage support, seek input and ideas from the neighborhood/community leaders to improve awareness and utilization of available services.  During this reporting period, one meeting took place on September 16, 2022.  Attendees included:  Desert Highland Gateway Wellness Committee: Cynthia Session  Borrego Health: Heidi Galicia, Director of School Base Health and Mobile Services Nereida Terrazas, VP of Clinic Operations CJ Pease, Director, Turnaround and Restructuring  Other attendees invited by the Wellness Committee and or Borrego Health: Donna Craig – Chief Program Officer for Desert Health Care District.

Goal	Goal/ Objective/ Other Topics	Successes, Emergent Issues, Challenges Findings, and Supporting Information (Graphs, reports, indicator results, etc.)
		CJ Pease provided updates regarding the Borrego Health's turnaround and restructuring plan including the recent decision to file for chapter 11 of bankruptcy due to the threat of halt of payment from DHCS. Included in the presentation was the recent judge ruling of which CJ would email Donna a copy for her to read.      Borrego Health's team reassured the Wellness Committee and meeting attendees that mobile medical and dental services will continue as planned and no changes will occur to the available services for the residents of Desert Highland Gateway or any of the communities Borrego Health serves. "We stay true to our commitment to provide services to our communities, our patients can expect to receive the same high quality level of care and this includes our mobile clinics"-Heidl Galicia.  It was decided that Cynthia Sessions and Heidl Galicia would meet offline to discuss/strategize ideas in which Borrego Health could re-assure community residents that they can count on the ongoing medical services as per usual.  Heidl Galicia presented the monthly utilization report and shared that the MOU renewal with the City of Palm Springs for the use of space at the James O Jessie Community Center was currently in process.  Next meeting is scheduled for October 21, 2022.  Attached is the PowerPoint presentation for this meeting.

		Due to the ever-changing situation related to the 2019 Novel Coronavirus (COVID-19) mobile dental professionals continue to be considered of increased occupational risk due to the confined space of mobile clinics. Borrego Health has not launch dental services during this reporting period. Instead, patients encountered during the medical mobile days were assessed for dental-related needs and referred to Borrego's nearest dental clinic, at either Centro Medico Cathedral City or DHS Health and Wellness Center depending on patient preference. Transportation services continue to be available to and from our dental clinic via Uber Health, for patients who lack transportation.

NEXT MEETING: JULY 15, 2022

Date: November 15, 2022

**To:** Program Committee – Foundation

**Subject:** Progress and Final Grant Reports 10/1/2022 – 10/31/2022

#### The following progress and final grant reports are included in this staff report:

#### **Public Health Institute #1046**

Grant term: 3/1/2020 – 2/28/2023 Original Approved Amount: \$250,000.

**Progress** report covering the time period from: 3/1/2022 – 8/31/2022

#### OneFuture CV #1148

Grant term: 3/1/2021 – 2/28/2023 Original Approved Amount: \$200,000.

**Progress** report covering the time period from: 3/1/2022 - 8/31/2022

**Public Health Institute, Grant#: 1046** 

Coachella Air Quality and Health Analysis

**Reporting Period:** 3/1/22-8/31/22

Paul English

Tel: (510) 620-3684

paul.english@trackingcalifornia.org

#### **Grant Information**

**Grant Amount:** \$250,000

Paid to date: \$150,000

**Balance:** \$100,000

**Due Date:** 10/10/2022

#### **Proposed Goals and Evaluation**

The specific benefits or measurable impact to be achieved by (2/28/2023):

This project evaluation plan emphasizes assessing the reach and effectiveness of outreach and engagement of target audiences in project activities. An outreach log will track activities to engage survey respondents, monitor hosts, and other target participants and stakeholders in the project. Example activities include presenting and distributing informational materials at health fairs and screening events, clinics, schools, senior centers, community meetings, and other venues.

Proposed evaluation activities for qualitative assessment of this project include:

- Conduct testing of the sample survey instrument by community-based organization staff not involved in the project in both English and Spanish prior to distributing it to respondents, and ensure that questions included are appropriate and understandable for target audiences;
- Debrief with project team members on project planning calls to obtain feedback on efficacy of project outreach and communications activities and materials, such as draft project fact sheets and written summaries of survey and analysis results;
- 3) Conduct informal interviews with project team members, monitor hosts, and/or other project participants to solicit their feedback on project progress and results:
- Document and incorporate feedback received from project team members and other project stakeholders into ongoing project planning and implementation.

Proposed evaluation activities for quantitative assessment of this project include:

- Develop and maintain an outreach log to track number of people reached and number of informational materials distributed to target audiences;
- 2) Develop and maintain a performance evaluation and monitoring spreadsheet to track data collected on specific evaluation metrics as listed below;
- 3) Analyze and summarize evaluation data to inform project implementation;
- 4) Share evaluation data with project team to inform required reporting and other communications about project results;
- 5) Incorporate evaluation results for the project into grant reporting and other communications about the project to key stakeholders, as appropriate.

#### Proposed number of District residents to be served:

**0-5:** 10,845

**6-17:** 44,304

**18-24:** 15,358

**25-64:** 94,833

**65 or more:** 32,850

Proposed geographic area(s) served:

All District Areas

#### **Progress This Reporting Period**

#### **Progress Outcomes:**

During the reporting period, we have accomplished the following in relation to our proposed goals and evaluation plan:

Goal #1: In Year 1, conduct a sample survey of 250 respondents in English and Spanish by mobile device to estimate prevalence of undiagnosed and physician-diagnosed asthma and cardiovascular disease among permanent residents of the Coachella Valley, with oversampling of vulnerable communities in the Eastern portion of the valley and of tribal populations.

Accomplishments: We were able to complete the survey and submit a report on the results to DHCD. We were only able to recruit 158 participants, due to refusals, high temperatures during the day, and resource issues. We found that the prevalence of respiratory symptoms was higher than the estimated prevalence of diagnosed asthma (11%), in that 20% of respondents who had not been diagnosed with asthma reported asthma symptoms. Adding those additional 28 respondents increased the estimate of those with either diagnosed asthma or reporting respiratory symptoms to 28% (45/158).

Furthermore, we found evidence among those who reported asthma symptoms, had diagnosed asthma, or used asthma medications, that their illness was poorly controlled. We will be presenting these findings to the DHCD Board later this month.

Goal #2: In Year 1, conduct an analysis of current and historic emergency room visits and hospitalizations for asthma and cardiovascular disease by zip code and comparable Indian Health Service data for the DHCD.

Accomplishments: This analysis of hospitalization and emergency room visits for the Coachella Valley by ZIP code, including diagnoses of asthma, COPD, bronchitis, pneumonia, heart disease, and myocardial infarction has been completed and submitted to DHCD.

Goal #3: In Year 1, conduct an analysis of available PM2.5, PM10, and ozone air pollution data for the DHDF areas, including seasonal trends, federal exceedances, and health benchmarks.

Accomplishments: This report was completed and submitted to DHCD.

Goal #4: During Years 1-3, conduct source apportionment monitoring at one primary site in the Coachella valley for a 12-month period to improve understanding of the sources of particulate matter in the Valley, with additional targeted PM2.5 and PM10 measurements at locations of interest, such as where high pollution levels are expected and where vulnerable populations are located.

Accomplishments: Source apportionment analysis was completed by the project partner, Berkeley Air Monitoring Group. They are currently waiting for the final lab results and when they are received, will submit a final report.

Goal #5: By the project completion, produce a white paper outlining results of the monitoring and analyses, and summarize practical policy options to mitigate sources and reduce exposures harmful to health.

Accomplishments: We have not started working on this goal at present.

#### Progress on the number of District residents served:

**0-5:** 10,845 **6-17:** 44,304 **18-24:** 15,358 **25-64:** 94,833

**65 or older:** 32,850

Geographic area(s) served during this reporting period:

All District Areas

#### Program/Project Tracking:

• Is the project/program on track?

Yes

• Please describe any specific issues/barriers in meeting the desired outcomes:

Goal #4 (source apportionment) has been slightly delayed as we are waiting for the lab to return the final results.

• What is the course correction if the project/program is not on track?

N/A

• Describe any unexpected successes during this reporting period other than those originally planned:

None during this period.

OneFuture Coachella Valley, Grant#: 1148

### Coachella Valley Black/African American Healthcare Student Scholarships

**Reporting Period:** 3/1/22 to 8/31/22

Jacqui Tricco
Tel: 17609894211
jacqui@onefuturecv.org

#### **Grant Information**

**Grant Amount:** \$200,000

Paid to date: \$135,000

**Balance:** \$65,000

**Due Date:** 10/01/2022

#### **Proposed Goals and Evaluation**

The specific benefits or measurable impact to be achieved by: (2/28/2023):

**Goal #1**: Establish an Advisory Council inclusive of African American students and alumni scholars and the region's leaders, key organizations and community members most knowledgeable about the obstacles facing African American youth in pursuit of college and career attainment to inform development of scholarship priorities, student recruitment strategies and support services.

**Goal #2:** Implement immediate scholarship outreach, selection and awards cycle for first cohort of students.

Identify and provide scholarships to local African American students currently enrolled in healthcare certificate programs, 2-year and 4-year healthcare majors but not currently under scholarship with OFCV.

**Goal #3:** Assure students persist and complete certificate and degree leading to health careers by providing holistic student support services including:

- 1. Career pathway planning aligned with student plans and financial goals
- 2. One-on-one college success counseling
- 3. Financial aid package review, training and student and parent coaching

4. Leadership and student success workshops/events to gain essential skills from local employers and mentors.

Goal #4: Identify Long-Term Funding Partners for Sustained Program Implementation

**Evaluation Plan:** Advisory Council will convene students, OFCV alumni, parents with lived experience along with key organizations to inform development of scholarship priorities, student recruitment strategies and support services. The council will utilize Regional Plan partnership to guide strategies, analyze data and guide evaluation process, develop career exploration opportunities and complete a sustainability plan.

OFCV will provide scholarships to students currently enrolled in healthcare certificate and college programs in two cycles for the 2021-22 and 2022-23 academic years, respectively. Information sessions will be completed before May of each year. Awards will be completed by August annually.

OFCV Advisors will utilize one-on-one counseling sessions and scholars' completed College and Career Plan to assess progress on short, mid and long term college, career, financial, mental wellness, career pathway, graduate school and employment goals. Advisors and scholars will identify strengths and gaps and adjust plans. Interim assessments will be completed at the conclusion of both the first and second term.

At the end of each term, scholars will submit unofficial transcripts for upcoming academic term to ensure full-time enrollment (12-15 units) and alignment with 4-6 year degree completion goals. Advisors will verify enrollment via class schedules and completion of each term via transcripts.

OFCV will verify scholars' submission of Financial Aid Award packages for evaluations by advisors. OFCV will assess scholar's capture and optimization of local (scholarships), state (Cal-Grant) and federal (Pell Grant) financial aid, identify eligibility for additional financial aid, assist additional financial aid applications and address financial gaps.

At the end of each term, scholars will submit unofficial transcripts for unit completion and gpa evaluation. Advisors will evaluate transcripts, address gaps and develop success strategies.

All students will participate in OFCV's Leadership Program and related networking opportunities with industry professionals, such as workshops and internships to build skills, confidence and social capital for students. Student engagement and quality of services are measured through annual surveys and evaluations, including student testimonials.

Advisory council in partnership with DHCD will challenge local, state and national organizations to invest fund to support Black and African American students pursuing healthcare careers by offering scholarships, providing support services and expanding

internship and employment opportunities.

#### Proposed number of District residents to be served:

Total: 40

Proposed geographic area(s) served:
Cathedral City
Coachella
Desert Hot Springs
Indio
La Quinta
Mecca

Palm Desert Palm Springs

Rancho Mirage

Thermal

#### **Progress This Reporting Period**

#### **Progress Outcomes:**

During this grant period, the BAA Advisory Committee completed the design of the Black and African American Healthcare Scholarship Advisory Tactical Plan, which will guide short, mid and long-term goals this 2022-23 academic year. At the end of this reporting period, eleven (11) scholars successfully completed their 2021-22 academic year. Additionally, all scholars competed their College & Career plans, which helps them establish goals to better prepare for their desired career in healthcare. OFCV's staff also worked with scholars to complete need assessments designed to help them identify priority areas and related resources, such as mentoring and academic guidance.

We are also excited to celebrate two graduates, Jacob Sullivan and Tearra Samuels, who completed their degrees at their respective universities this past Spring. The remaining nine (9) scholars have persisted into their second year and are in the process of submitting their Fall 2022 verifications to receive their scholarship disbursements.

Progress on the number of District residents served:

**Total:** 2,000

Geographic area(s) served during this reporting period:

All District Areas

#### Progress on the Program/Project Goals:

#### Goal #1:

BAA Advisory Committee completed their 2022-23 Tactical Plan:

Short, mid and long-term goals were set. This included an emphasis on sustainability of the BAA Scholarship fund and the development of career exploration and mentoring opportunities.

The BAA Advisory Committee is representative of local education, business & civic partners

BAA Advisory Committee was approved by OneFuture's Oversight Committee to become an alignment team and their tactical plan will be reviewed as part of the Regional Plan for College & Career Success.

BAA Advisory Committee co-chairs are being finalized and include: Ventrice Diggs-King, Vice President, Region Head- West, Sallie Mae

The BAA Advisory Committee held their first meeting of the 2022/2023 academic year on Wednesday, September 28th from 4:00 –5:00PM via zoom.

#### Goal #2:

The Black & African American Healthcare Scholarship portal has been undergoing system updates, along with suggested edits from the BAA Advisory Committee. The application will open for submissions commencing January 2023 in support of students enrolling in college during the 2023-24 academic year.

#### **Goal #3:**

February – April 2022: All 11 scholars met with OFCV's counseling staff to complete their second required one-on-one check-in for the year. Areas of discussion ranged from academic, financial, mental wellness, professional development and financial needs. In addition, the need for financial literacy was a reoccurring topic. Scholars were provided with referrals to a financial literacy expert to help them create a financial plan, including college financial aid assistance offered by OFCV's staff.

April 2022: The Bridge to Careers - Super Powering Your Career series focused on helping scholars sharpen their professional skills and increase their competitive edge. Scholars had an opportunity to connect with professionals and alumni to get mentorship in their areas of interest.

May 2022 – 2022: OFCV's Graduate Celebration was held and included a celebration of Jacob Sullivan and Tearra Samuels.

June 2022: BAA scholars had an opportunity to learn about the Health Career Connections program and apply. The goal was to provide scholars the opportunity for paid professional experiences that include mentorship and career exposure. One of our BAA scholars, Aatifah Jarret, was placed at Desert Healthcare District with Jana Trew as her preceptor. Her project was to survey local behavioral health employers to understand their workforce needs and determine their ability to host undergraduate and graduate interns. Specifically, the survey asked about Associate Social Worker (ASW), Associate Marriage and Family Therapist (AMFT), Community Health Workers (CHW), and Practicum Students, and how many slots each employer had available for internships and their challenges in getting interns. She created a sharable infographic with the survey results. The goal is to increase the number of behavioral health internships in the valley, so that more students can get experience and begin their careers here, serving our valley.

July 2022: The theme of OneFuture's Student Leadership Conference series this past summer was "Focus on Your Path", and delivered 10 virtual sessions that helped scholars prepare for the upcoming academic year.

2021-22 Academic Report:

Eleven (11) Black & African American Healthcare scholars completed the 2021-22 academic year (or 100%):

Cumulative GPA: 3.35 Average

Nine (9) scholars have enrolled for the Fall 2022 term (or 100%)

Two (2) scholars graduated from their respective universities and programs this past spring 2022.

#### Learning Opportunities:

During one-on-one meetings and financial aid assessments, OFCV's staff learned that nine (9) out of eleven (11) scholars accepted student loans this past year. The amount of debt ranged from \$3550 to \$55,000 for the year. OFCV's staff has been connecting scholars with a Sallie Mae representative on the BAA Advisory Committee, so that students and their families may receive financial literacy guidance and responsible borrowing advice to reduce student loan debt.

One (1) scholar, Terra Samuels, completed her master's degree program, but needs additional financial support to complete her clinical hours. OFCV team is working to connect her to other financial opportunities, in addition to exploring opportunities to broaden the Black & African American Healthcare Scholarship requirements and resources for students.

#### Goal #4:

A Sustainability Workgroup was formed to focus on identifying, cultivating, and securing financial support for the Black and African American scholarship program.

Dr. Judy White Donna Craig Sheila Thornton Paul Olson

The team committed to the vision of why we need to sustain the BAA Scholarship initiative: "We are in existence to remove barriers and create access to education."

The team identified a list of individuals and organizations as prospects and will be working with the BAA Advisory Council to prioritize the list and begin scheduling meetings. It is important that the organizations and individuals align with the vision of the BBAA Healthcare Scholarship Program and could advance the financial and human resources needed to advance and sustain the program. Initial prospects include:

Funders Alliance of the Inland Empire
CASE executive director Pastor Samuel Casey
BLU Educational Foundation
Inland Empire Community Foundation
Black Equity Initiative of the Inland Empire
Desert Care Network

The team reviewed requests for graduate expenses that are not currently covered by the scholarship parameters and the need to define what our scholarships do cover and what flexibility there could be for future scholarship giving.

The team agreed that the BAA Healthcare Scholarship program fundraising should be in tandem with the overall OneFuture Healthcare Scholarship fundraising to ensure we have adequate funds for healthcare students. It was also agreed that donors should have the opportunity to give to a subset of overall scholarships if they choose to give to specific initiatives.

The committee will be meeting monthly and engage members of the Advisory Council moving forward.

#### Program/Project Tracking:

Is the project/program on track?

Yes

Please describe any specific issues/barriers in meeting the desired outcomes:

Prospects will continue to be vetted and solicited to work toward the goal of \$100,000 in the next 18 months and grow to \$25,000 in three years.

What is the course correction if the project/program is not on track?

No course correction is required.

 Describe any unexpected successes during this reporting period other than those originally planned:

We are excited to announce that we celebrated two (2) graduates this past spring 2022:

Jacob Sullivan completed his bachelor's degree in Economics at Brown University. Following graduation, he will be conducting research at the Watanabe lab in the Pharmacology department at Kyoto University. Upon his return to the United States, he will be attending the Warren Alpert Medical School for his medical degree.

Terra Samuels completed her master's degree in Behavioral Analysis at Arizona State University. She will spend the next year completing her clinical hours. In addition, she became an entrepreneur and started her LLC Neurotherapy Consult, which provides behavioral analysis intervention and services to children with developmental disabilities. Her future goals include opening a nonprofit organization that supports people in crisis.
