

IMPROVING WOMEN'S HEALTH ACCESS

The Impact of Desert Healthcare District's Mobile Medical Clinic

1 OUT OF 7

COACHELLA VALLEY WOMEN
AGED 50-74 HAVE NOT HAD A
MAMMOGRAM IN THE PAST
TWO YEARS*

IN 2022,
6,954
COACHELLA VALLEY
ADULTS WERE LIVING
WITH DIAGNOSED
BREAST CANCER*

TIME SINCE LAST PAP SMEAR:
WOMEN AGES 21-65

18% of women have not
had a pap smear in 3+ years*

Desert Healthcare District's mobile medical clinics are playing a key role in transforming access to essential health services for women by bringing care directly to underserved communities. They provide a comprehensive range of services, including obstetrics care, pap smears, primary care, and screenings in partnership with mammography clinics and community partners.

WOMEN'S HEALTH MOBILE MEDICAL CLINICS:

256

PATIENTS WERE PROVIDED
HEALTH SERVICES THROUGH
5 TARGETED WOMEN'S
SPECIALTY MOBILE CLINICS
